

### **High Quality Construction**

The durable steel frame provides support and stability.

### **Adjustable Pivot Bar**

Adjusting the pivot bar allows you to change the speed of your rotation. This way, both beginners and advanced users can enjoy the workout.

### **Padded Nylon Bench**

The comfortable design provides back support and is cushioned for comfort.

### **Adjustable Foam Ankle Lock**

The foam ankle lock provides security and comfort. It helps keep legs in the proper position and adjusts to fit the user.

### **Foam Handlebars**

Use the grips for support and help in achieving proper form and balance.

### **Adjustable Height**

The Inversion Flex System adjusts in length so a variety of users can enjoy this bench. Height measurements are marked on each adjustment hole so your changes are more accurate.

### **Safety Tether Strap**

The strap provides for a safer workout, allowing users to control the system's angle of inversion.

### **Space Saver Design**

The inversion flex system employs a fold-away design, for quick and convenient storage.
